Most Popular Free Web Templates

At these pages you can see the free web templates sorted by popularity, and popularity in this case is measured by number of downloads each free template has received through its listing at Website Templates Online project.

Still this is not a universal measure as lots of high-quality excellent free web templates are still too young to gain lots of downloads - in fact, your taste and project requirements are still the best measures to pick the free web template that suits your needs best of all!
